

Jayraj Radadiya

I want to be a knowledge oriented professional in Data Science and its Analytics & Management also I want to enhance my technical skills capable enough to stand up to the competition in near future.

Experience

CloutCo. Marketing

I was a part of a start-up "CloutCo. Marketing" for couple of projects. I was handling the digital marketing (i.e., Website designing & Building).

Web Designer | Silverwing Technologies PVT LTD, A'bad

I successfully completed internship as "Web Designer". Internship consisted of Web designing & Project development

Activities

GitHub

I attended GitHub Workshop organized by "The Entrepreneurship cell". Where I came to know about GitHub and its use.

Zonal Techfest

I was Head of LAN department in Gujarat Technological University (GTU) zonal level Techfest 2019.

SSIP Gujarat Industrial Hackathon 2018

I was the team leader and representative for the SSIP Gujarat Industrial Hackathon 2018 where our domain was Irrigation Department and we designed Smart/Automatic Irrigation System.

The Entrepreneurship-cell

I was part of organizing committee of the Entrepreneurship-cell in college. Through this club we used to organize events revolving around the different branches of engineering and also events which improves Leadership/Teamwork/communication of students.
